Attention: Gary Horton, Drilling & Completion Manager

Re: Mancal Energy Certificate of Restoration Application (part II) for the Well Site Mancal Rigel D-26-K/94-A-10 (WA # 22798)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report (Schedule B) for wellsite for the above referenced well authorization (WA # 22798) submitted by Highmark Environmental Services Ltd on behalf of Mancal Energy Inc on November 23<sup>rd</sup>, 2018.

Based upon review of the information provided by the applicant, the reclamation inspection assessment report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5913).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

**“The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued.”**

And:

**“A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site.”**

Therefore Mancal Energy Inc remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi'. The signature is written in a cursive style with a horizontal line above the first part of the name.
