Petronas Energy Canada Ltd
1600, 215-2nd St SW
Calgary, AB T2P 1M4

Attention: Connie Hart,

RE: Warning : Fail To Comply With A Condition of an Authorization

Dear Connie Hart,

Petronas Energy Canada Ltd holds water authorizations STWU# 6024 (AD# 100113942), STWU# 6136 (AD# 100115337), STWU# 6139 (AD# 100115338), and STWU# 6175 (AD# 100115511), issued under the Water Sustainability Act. These authorizations contain a standard condition as follows:

The permit holder must maintain accurate records of all water withdrawal activities throughout the term authorized. Water withdrawal records for each diversion point, including "0" values for months where no water was withdrawn, must be recorded monthly. Quarterly reports are due on or before April 25, July 25, October 25, and January 25, via eSubmission.

This condition provides the company 25 days to compile its water withdrawal data and to submit a report to the BC Energy Regulator (Regulator). A report for the months of April, May and June, 2023, was due no later than July 25, 2023.

On August 3, 2023 the Regulator received the required reports. This was 9 days past the due date. Late reporting may result in issuance of a violation ticket. The Regulator notes that Petronas Energy Canada Ltd has no recent non-compliance history related to late water withdrawal reporting.

Given the circumstances, Petronas Energy Canada Ltd is hereby issued a warning only for the following: Petronas Energy Canada Ltd, on or about July 26, 2023, at or near Fort St. John, in the Province of BC, did fail to comply with the condition of an authorization contrary to Section 106(3)(k) of the Water Sustainability Act.

If Petronas Energy Canada Ltd has any questions about this matter, please feel free to contact the undersigned.

Sincerely,

<original signed by>
