Rylan Zazula, P.Eng.  
Exploitation Engineer – BC South  
Canadian Natural Resources Limited  
2500, 855 – 2nd St SW  
Calgary, AB T2P 4J8

Dear Rylan Zazula:

**RE: OBSERVATION WELL DESIGNATION WITHDRAWAL  
CNRL ET AL PEEJAY b-98-C/94-A-16 (WA# 2164)  
PEEJAY FIELD – HALFWAY FORMATION**

The subject well was drilled in and completed in the Halfway formation the purpose of oil production in 1967. The well produced from 1967 until 1987, when it was suspended. This well was approved for Observation designation status February 8<sup>th</sup>, 2021, to monitor reservoir pressures in the waterflood project Approval # 66-09-001. At present, the CNRL Unit #2 pressure maintenance project approval has been cancelled as CNRL decommissions all conventional wells in this area.

The last reservoir pressure test conducted in the well was completed in April 2024 and CNRL has requested the withdrawal of the observation designation.

The observation well designation under section 2(7) of the *Drilling and Production Regulation* is hereby withdrawn for CNRL et al Peejay b-98-C/94-A-16 (WA# 2164), for the Halfway formation. The well will no longer be used to monitor reservoir pressure.

Should you have any questions, please contact Michelle Gaucher at (250) 419-4482 or the undersigned at (250) 419-4430.

Sincerely,

---

Ron Stefik, P.L. Eng.  
Supervisor, Reservoir Engineering  
BC Energy Regulator
