Dear Mr. Vardy:

**RE: EXTENDED WATER INJECTIVITY TEST  
PC TETHYS KOBES a-A87-G/94-B-09 (WA# 14126); DEBOLT**

The Commission has reviewed your application dated September 27, 2005 requesting permission to conduct a second water injectivity test into the Debolt formation of the subject well.

Your request for temporary injectivity is considered appropriate, as it will provide necessary information to determine the well's capability during the start-up and commissioning of your disposal facility.

Approval for temporary injectivity test is hereby granted under Part 8, Division 3, Section 94 of the *Drilling and Production Regulation*, subject to the following conditions;

1. The test injection interval must be in the Debolt formation.
2. The total volume of injected water must not exceed 250 m<sup>3</sup>.
3. The disposal/injection pressure at the sandface must not exceed the formation fracture pressure.

Please note that a notice of your application for salt water disposal will be published in the October 6 and 13, 2005 issues of the BC Gazette. Formal approval may be granted only if no valid objections are received by the closing date of October 27, 2005.

Sincerely,

Richard Slocomb, P. Eng.  
A/ Director  
Resource Conservation Branch
