Dear Rylan Zazula:

**CONCURRENT PRODUCTION PROJECT
APPROVAL ORDER CANCELLATION
LAGARDE FIELD – DUNLEVY ‘B’ POOL**

A Concurrent Production project in the Lagarde field, Dunlevy ‘B’ pool was approved by the Regulator on December 27th, 1990. On July 29th, 2024, the Regulator received a request from CNRL to rescind this project approval due to upcoming well decommissioning. Oil production ceased in March of 2024.

Oil production, including a concurrent approval and 10 years of operation has demonstrated effective resource management. A final reservoir pressure for this project was measured in March 2001. **A final reservoir pressure is required before abandonment of all wells in this pool.**

Original Oil in Place (m ³)	Initial Reserves (m ³)	Cumulative Production (m ³)	Recovery Factor
275,520	55,986	55,986	20%

Pursuant to the Energy Resources Activities Act (ERAA) section 75 (2)(b)(i), the Regulator may cancel, suspend or amend a designation at the request of the applicant to whom the designation was given. The concurrent production project approval for the Lagarde field, Dunlevy ‘B’ pool, is hereby cancelled, under the authority of ERAA section 75(2)(b).

Please contact Michelle Gaucher at (250) 419-4482 or the undersigned at (250) 419-4430 should you have any questions.

Sincerely,

Ron Stefik, P.L.Eng.
