

OIL AND GAS COMMISSION

April 28, 2000

5000-4100-59240-16  
OGC -000136

Mr. Tom Coburn  
Jedney Asset Team  
Petro-Canada  
P.O. Box 2844  
Calgary, AB T2P 3E3

Dear Mr. Coburn:

**Re: Application For Acid Gas Injection  
PEX et al Jedney b-88-J/94-G-1 WA# 427  
Approval 96-16-001  
Jedney Baldonnel "A" Pool**

This refers to your letter dated March 14, 2000 wherein you requested approval to inject acid gas in the subject well. Also acknowledged is Petro-Canada's presentation of the technical merits of the request, in a meeting in Victoria on April 14, 2000.

Please note that two approvals were granted under Section 116 (now 100) of the Petroleum and Natural Gas Act to Petro-Canada for acid gas injection in 1996. Approval 96-16-001 was for the well b-88-J/94-G-1 and Approval 96-16-002 was for the well a-79-J/94-G-1. Acid gas injection was initiated in the well a-79-J effective December 5, 1996.

Breakthrough of previously injected gas and the development of newer pools in the area with higher level of acid gas concentration are the main reasons for your request. Therefore, your proposal to also inject acid gas in the well b-88-J is considered appropriate.

As the approval has already been granted, we wish to point out that the Commission must be notified, in writing, of the date of commencement of acid gas injection for the subject well as specified in condition # 13 of the Approval 96-16-001.

Yours sincerely,

Craig Gibson, P. Eng.  
Manager  
Reservoir Engineering and Geology

Approval Letters to Industry  
GEP, SWD, CONCURRENT PROD,  
PRESSURE MAINTENANCE,  
WATERFLOOD, ETC.
