Calgary AB T2P 4K3

Dear Mr. Stephansson:

Re: Acid Gas Injection Approval

Williams et al W Stoddart 1-33-87-21 W6M; Approval 98-16-002 (Amendment #1) WA# 9897
Williams et al W Stoddart 7-34-87-21 W6M: Approval 98-16-003 (Amendment #1) WA# 11398
Halfway Formation

This refers to your letter of April 7, 2003 wherein you requested a change in the progress report submission requirements for the subject approvals.

It is noted that the subject wells have been successfully injecting acid gas since November 1998. Progress reports have been submitted for each six-month period for each of the acid gas injection approvals.

We concur with your proposal for annual submission of the progress reports. Also, your request that the progress report period coincide with the submission of the Sulphur Emissions Summary of January 31 of the following year is considered appropriate.

Therefore, condition #11 of Approval 98-16-002 and condition #12 of Approval 98-16-003 are hereby amended, such that future progress reports should be submitted annually for the period February 1 to January 31.

Sincerely,

Craig Gibson, P. Eng.
Manager
Reservoir Engineering and Geology

Approval Letters to industry
GEP, SWD, CONCURRENT PROD,
PRESSURE MAINTENANCE,
WATERFLOOD, ETC.
