Dear Ms. Pashniak:

**RE: APPLICATION FOR COMMINGLED PRODUCTION  
ANADARKO JEDNEY d-73-E/94-G-8; WA# 6705**

The Commission has reviewed your application dated September 3, 2002 requesting permission to commingle gas production from the Baldonnel and Halfway zones encountered in the subject well.

The Commission has designated the gas pools under application to be the Jedney – Baldonnel/Upper Charlie Lake “A” and Halfway “C”. As noted in your application, gas compositions and reservoir pressures are similar for both pools. Commingled completion is expected to increase gas production from otherwise marginal zones, thereby increasing recoverable reserves.

We wish to advise you that your application to commingle production from these two pools is hereby approved, under the authority of section 41 of the *Drilling and Production Regulation*, subject to the following conditions:

1. Production from the Baldonnel/Upper Charlie Lake (1416.0–1441.3 mKB) and Halfway (1600.5–1629.0 mKB) zones may be commingled.
2. Gas, condensate and water production should be allocated on the Ministry of Provincial Revenue BC S-1 and BC S-2 forms on the basis of Baldonnel/Upper Charlie Lake 50% and Halfway 50%.
3. This approval may be modified at a later date if deemed appropriate through a change in circumstances.

Sincerely,

Peter Attariwala, P. Eng.  
Supervisor  
Reservoir Engineering
