Dear Mr. Colabella:

RE: COMMINGLED PRODUCTION SPECIAL PROJECT
CDN FOREST OJAY a-072-A/093-I-9; WA # 25880

The OGC has reviewed your letter dated February 8, 2011 requesting approval to commingle gas production from the Cadotte, Falher, Gething, Cadomin and Nikanassin formations in the subject well. The Commission has designated the zones under application to be part of the Ojay – Cadotte “P”, Falher “G”, Gething “P”, Cadomin “V” and Nikanassin “Y” gas pools.

All formations listed above were completed in March & April 2010 prior to spring break-up. Although commingling approval was not issued, the well was put on production in November 2010 with all formations producing in a commingled state. Additional data required for evaluating commingling approval has since been submitted to the OGC.

Attached please find Order 11-20-003 designating an area in the Ojay field within the subject formations a Special Project under section 75 of the *Oil and Gas Activities Act* for Commingled Production. Please note that commingled production operations will be subject to periodic review and the Commission may modify the Order, if deemed appropriate.

Should you have any questions, please contact Richard Slocomb at (250) 419-4421 or Travis Mercure at (250) 419-4448.

Sincerely,
