Dear Ms. Mactaggart:

**RE: APPLICATION FOR COMMINGLED PRODUCTION
CNRL DOIG b-38-K/94-A-16; WA# 8708**

The Commission has reviewed your application dated February 25, 2000, requesting permission to commingle gas production from the Baldonnel and Halfway zones encountered in the subject well.

The Commission has designates the gas pools encountered by this well to be Doig Rapids – Nordegg-Baldonnel “A” and Halfway “C”.

The Halfway “C” pool is producing gascap gas under a daily gas allowable of 60.0 e³m³/d. Oil production from this pool continues, from the well b-28-K/94-A-16. The commingling of Halfway gas production with the Nordegg-Baldonnel would remove the ability to monitor gascap production rates. Therefore, your application can not be approved at this time.

Sincerely,

B. van Oort, P. Eng.
Director
Engineering and Geology Branch
