**RE: APPLICATION FOR COMMINGLED PRODUCTION  
CNRES PEEJAY d-A70-F/94-A-16; WA# 12011**

The Commission has reviewed your application dated April 28, 1999, requesting permission to commingle gas production from the Bluesky "C" and Nordegg-Baldonnel "A" pools encountered in the subject well.

The Commission has designated the gas pools in this well to be Bluesky "C" and Nordegg-Baldonnel "A" of the Peejay field. Commingling approval is granted as both pools are in pressure communication behind pipe.

We wish to advise you that your application to commingle production from these two pools is hereby approved, under the authority of section 41 of the *Drilling and Production Regulation*, subject to the following conditions:

1. Production from the Bluesky (993-995 mKB) and Nordegg-Baldonnel (1020.0-1026.5 mKB) formations may be commingled.
2. Gas, condensate and water production should be allocated on the Ministry of Energy and Mines BC S-1 and BC S-2 forms on the basis of Bluesky 10% and Norgdegg-Baldonnel 90%.
3. This approval may be modified at a later date if deemed appropriate through a change in circumstances.

Sincerely,

B. van Oort, P. Eng.  
Director  
Engineering and Geology Branch  
Oil and Gas Commission
