Leonard Fabes, P. Eng.
Exploitation Engineer
Canadian Natural Resources Limited
Suite 2500, 855 – 2 Street SW
CALGARY AB T2P 4J8

Dear Mr. Fabes:

RE: APPLICATIONS FOR COMMINGLED PRODUCTION
CNRL SILVER C- 053-C/094-H-11; WA# 20466
CNRL SILVER A- 013-E/094-H-11; WA# 20835
CNRL SILVER C- 026-E/094-H-11; WA# 20837
CNRL SILVER C- 041-E/094-H-11; WA# 20368
CNRL SILVER A- 094-E/094-H-11; WA# 20424
CNRL SILVER A- 017-G/094-H-11; WA# 20419

The Commission has reviewed your application dated September 25, 2006 requesting permission to commingle production from the Bluesky and Gething zones encountered in the subject wells.

With the exception of the well c-53-C, the Commission has designated these wells to be producing from either the Silver – Bluesky-Gething “A” or Bluesky-Gething “B” gas pools. The Commission has determined that the Gething formation is not present in the well c-53-C/94-H-11 and has designated this pool as the Silver – Bluesky “B” gas pool. As such the subject wells do not require approval for commingled production from the Gething and Bluesky formations; furthermore CNRL is not required to allocate production separately to each zone.

Should you have any questions, please contact the undersigned at (250) 952-0366.

Sincerely,

Richard Slocomb, P.Eng.
Supervising Reservoir Engineer
