Dear Mr. Espiritu:

**RE: APPLICATION FOR COMMINGLED PRODUCTION
DEVON AOG HIDING a-95-H/93-I-16; WA# 12218**

The Commission has reviewed your application dated January 10, 2003 requesting permission to commingle gas production from the Cadotte and Falher D zones encountered in the subject well.

The Commission has designated the gas pools under the application to be Hiding Creek - Cadotte "C" and Falher D "A".

Both zones contain sweet gas; any potential crossflow should have no detrimental effect on ultimate recovery. We wish to advise you that your application to commingle production is hereby approved, under the authority of section 41 of the *Drilling and Production Regulation*, subject to the following conditions:

1. Production from the Cadotte (2417.0-2421.0 mKB) and Falher D (2612.0-2615.0 mKB) zones may be commingled.
2. Gas, condensate and water production should be allocated on the Ministry of Provincial Revenue BC S-1 and BC S-2 forms on the basis of Cadotte 25% and Falher D 75%.
3. This approval may be modified at a later date if deemed appropriate through a change in circumstances.

Sincerely,

Ron G. Stefik, AscT
Sr. Reservoir Engineering Technician
