CALGARY AB T2P 3H5

Dear Mr. Burnside:

RE: INTERIM COMMINGLED PRODUCTION APPLICATION
DECL ET AL RED 05-10-085-21; WA# 11444

The OGC has reviewed your application received December 23, 2003, for temporary approval to commingle gas production from the Dunlevy and Baldonnel zones in the subject well.

At present there is insufficient information available for the Commission to designate either zone as a definitive pool. Due to the unknown production and reserves potential of these zones, the Commission can not at this time approve commingled production. Dominion may wish to re-apply for commingled production following the results of isolated zone production and pressure testing, should they indicate limited potential.

Should you have any questions, please contact the undersigned at (250) 952-0311.

Sincerely,

Peter Attariwala, P.Eng.
Supervisor
Reservoir Engineering
