Mr. David Cronkhite, P.Eng.  
Chief Production Engineer  
Encal Energy Ltd.  
1800, 421 - 7th Ave SW  
CALGARY AB T2P 4K9

Dear Mr. Cronkhite:

**RE: APPLICATION FOR COMMINGLED PRODUCTION  
ENCAL ET AL TWO RIVERS 6-9-83-16 W6M; WA# 2139**

The Commission has reviewed your application dated February 21, 2000, requesting permission to commingle gas production from the Baldonnel and Halfway zones encountered in the subject well.

The Commission designates these gas pools in the Two Rivers field to be the Baldonnel "A" and the Halfway "A".

Reservoir pressure and gas compositions are similar for the Baldonnel and Halfway pools. Commingled completion would increase the productive life of the well, thereby increasing recoverable reserves.

We wish to advise you that your application to commingle production from these two pools is hereby approved, under the authority of section 41 of the *Drilling and Production Regulation*, subject to the following conditions:

1. Production from the Baldonnel (1218.5 – 1221.6 mKB) and the Halfway (1492.8 –1494.7 mKB) zones may be commingled.
2. Gas and condensate production should be allocated on the Ministry of Energy and Mines BC S-1 and BC S-2 forms on the basis of Baldonnel 10% and Halfway 90%.
3. This approval may be modified at a later date if deemed appropriate through a change in circumstances.

Sincerely,

B. van Oort, P. Eng.  
Director  
Engineering and Geology Branch
