Mr. Kelly Kostuik, P. Eng.  
NEBC Group  
Numac Energy Inc.  
321 - 6th Avenue SW  
Calgary AB T2P 3H3

Dear Mr. Kostuik:

**RE: APPLICATION FOR COMMINGLED PRODUCTION  
NUMAC MARTIN d-31-G/94-H-6; WA# 9090**

The Ministry has reviewed your application dated January 16, 1998, requesting permission to commingle gas production from the Baldonnel "I" and Halfway "F" pools encountered in the subject well.

Reservoir pressure and fluid composition are similar for these two pools. We wish to advise you that your application to commingle production from these two formations is hereby approved, under the authority of Section 44 of the *Drilling and Production Regulation*, subject to the following conditions:

1. Production from the Baldonnel (1123.0 - 1139.4 mKB) and Halfway (1222.0 - 1227.3 mKB) formations may be commingled.
2. Gas, condensate and water production should be allocated on the BC S-1 and BC S-2 forms on the basis of Baldonnel 20% and Halfway 80%.
3. This approval may be modified at a later date if deemed appropriate through a change in circumstances.

Sincerely,

B. van Oort, P. Eng.  
Director  
Engineering and Operations Branch
