Mr. D. Lehman, P. Eng.
Senior Petroleum Engineer
Paramount Resources Ltd.
4000 350 7th Ave SW
Calgary AB T2P 3W5

Dear Mr. Lehman:

**RE: APPLICATION FOR COMMINGLED PRODUCTION
PARA ET AL ZAREMBA a-68-E/94-H-7; WA# 10158**

The Ministry has reviewed your application dated March 12, 1998, requesting permission to commingle gas production from the Zarembo field Charlie Lake and A Marker "C" pools encountered in the subject well.

Reservoir pressure and fluid composition are similar for these two pools. We wish to advise you that your application to commingle production from these two formations is hereby approved, under the authority of Section 44 of the *Drilling and Production Regulation*, subject to the following conditions:

1. Production from the Charlie Lake (1221.0 - 1235.0 mKB) and A Marker "C" (1241.0 - 1244.5 mKB) pools may be commingled.
2. Gas, condensate and water production should be allocated on the BC S-1 and BC S-2 forms on the basis of Charlie Lake 40% and A Marker "C" 60%.
3. This approval may be modified at a later date if deemed appropriate through a change in circumstances.

Sincerely,

B. van Oort, P. Eng.
