OGC - 000265

Mr. Tom Everest
Reservoir Engineer
Jedney Asset Team
Petro-Canada
P.O. Box. 2844
Calgary AB T2P 3E3

Dear Mr. Everest:

**RE: COMMINGLED PRODUCTION APPROVAL
PC DOMCAN JEDNEY a-55-J/94-G-1; WA# 13010**

The Oil and Gas Commission (OGC) has reviewed your application, dated November 3, 2000, requesting approval to commingle gas production from the Baldonnel and Halfway zones in the subject well.

On June 14, 2000 the OGC issued an interim approval to commingle these two zones, prior to the drilling of this well, in order to allow finalization of the well drilling and completion program. The OGC has previously approved commingled production from these same pools for a number of wells, in order to increase recoveries. Condition #1 of the interim approval required mandatory well testing of the individual zones, this condition has now been met.

We wish to advise you that your application to commingle production from these pools is hereby approved, under the authority of section 41 of the *Drilling and Production Regulation*, subject to the following conditions:

1. Production from the Baldonnel/Upper Charlie Lake "A" and Halfway "A" pools may be commingled.
2. Gas, condensate and water production should be allocated on the Ministry of Energy and Mines BC S-1 and BC S-2 forms on the basis of Baldonnel/Upper Charlie Lake 50% and Halfway 50%.
3. This approval may be modified at a later date if deemed appropriate through a change in circumstances.

Should you have any questions, please contact either Peter Attariwala at (250) 952-0311 or Ron Stefik at 952-0310.

Sincerely,

Craig Gibson, P. Eng.
Manager
Reservoir Engineering and Geology
