Dear Mr. Krug:

**RE: COMMINGLED PRODUCTION APPROVAL CORRECTION  
PC et al Jedney D-64-E/94-G-8; WA# 9383**

---

The Oil and Gas Commission issued an approval, dated April 17, 2000, to commingle production from the subject well, Baldonnel/Upper Charlie Lake "A" and Nancy "A" pools of the Jedney field.

Condition #2 of the approval, granted under the authority of section 41 of the *Drilling and Production Regulation*, stated that an allocation factor of 13% be used for reporting production from the Nancy pool. This is in error. The condition should read;

- 2. Gas, condensate and water production should be allocated on the Ministry of Energy and Mines BC S-1 and BC S-2 forms on the basis of Baldonnel/Upper Charlie Lake 83 % and Nancy 17%.

Please amend your records to reflect this correction. We apologize for any inconvenience this may cause you.

Sincerely,

Craig Gibson, P. Eng.  
Manager  
Reservoir Engineering and Geology
