Calgary AB T2P 3E3

Dear Mr. Khallad:

**RE: APPLICATION FOR COMMINGLED PRODUCTION**  
**PC AEC TOMMY d-42-L/94-G-9; WA# 10020**  
**PC CONWEST TOMMY c-52-L/94-G-9; WA# 9558**  
**PC AEC TOMMY a-83-L/94-G-9; WA# 9054**

---

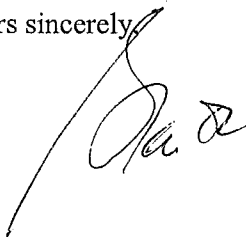

The Ministry has reviewed your application dated December 1, 1997, requesting permission to commingle gas production from the Halfway 'A' and Doig 'A' gas pools encountered in the subject wells.

Reservoir pressure, gas production rates, fluid composition and reserves appear to be similar for the two zones in each well.

The application to commingle production from these two formations is hereby approved, under the authority of section 44 of the *Drilling and Production Regulation*, subject to the following conditions:

1. Production from the Halfway and Doig formations may be commingled.
2. Gas, condensate and water production should be allocated on the BC S-1 and BC S-2 forms on the basis of Halfway 50% and Doig 50%.
3. This approval may be modified at a later date if deemed appropriate through a change in circumstances.

Yours sincerely,

B. van Oort, P. Eng  
Director  
Engineering and Operations Branch
