Dear Mr. Cadrin:

**RE: APPLICATION FOR COMMINGLED PRODUCTION

The Commission has reviewed your application dated January 19, 2001, supplemented with additional data on April 4, 2001, requesting permission to commingle gas production from the Bluesky and Gething zones encountered in the subject well.

The Commission maps these zones as the Buick Creek - Bluesky "C" and Rigel - Gething "B" pools.

We wish to advise you that your application to commingle production from these two pools is hereby approved, under the authority of section 41 of the *Drilling and Production Regulation*, subject to the following conditions:

1. Production from the Bluesky (1053.0-1054.0 mKB) and Gething (1073.0-1079.0 mKB) zones may be commingled.
2. Gas, condensate and water production should be allocated on the Ministry of Energy and Mines BC S-1 and BC S-2 forms on the basis of Gething 100%.
3. This approval may be modified at a later date if deemed appropriate through a change in circumstances.

Sincerely,

Craig Gibson, P. Eng.
