Dear Mr. Chong:

**RE: CONCURRENT PRODUCTION APPROVAL
LAPRISE CREEK – COPLIN “A” POOL**

This letter is to inform you that the Commission has granted a 60 day extension to Concurrent Production approval 04-07-007, issued September 15, 2004, for the subject pool as requested in your application dated May 11, 2005. This extension has been issued to allow the Commission sufficient time to analyze the most recent simulation study results provided by Crew Energy on behalf of their partners. This study will be used to help make a determination as to the most appropriate long term production strategy for the subject pool.

Please note that the project allowables may be amended if another operator successfully completes an oil well outside the project area in the subject pool.

Sincerely,

Craig Gibson, P. Eng.
Director
Resource Conservation Branch
