Dear Mr. Burnside:

**RE: CONCURRENT PRODUCTION APPROVAL
CACHE CREEK - DOIG "C" POOL**

The Commission has reviewed your application dated November 28, 2003 for Concurrent Production from the Cache Creek - Doig "C" oil pool.

As gas produced exceeds the solution gas-oil ratio and this gas will be conserved, a Concurrent Production approval is considered appropriate. Accordingly, Approval 04-07-002 is hereby granted under Section 97 of the Petroleum and Natural Gas Act. This approval will allow flexibility in production management to maximize pool oil recovery.

Please note that the project allowables may be amended if another operator successfully completes an oil well outside the project area in the subject pool.

Sincerely,

Craig Gibson, P. Eng.
