Mr. Darrell Wardberg, P. Eng.
Area Engineer
Encal Energy Ltd.
1800, 421 - 7th Ave S.W.
Calgary, AB T2P 4K9

Dear Mr. Wardberg:

**RE: CONCURRENT PRODUCTION APPROVAL RESCINDED
MILLIGAN CREEK WEST HALFWAY "H"**

Branch staff have reviewed your application, dated July 9, 1998, requesting that the Concurrent Production approval (#94-07-002) for the subject pool be rescinded.

The Milligan Creek West Halfway "H" oil pool is at a highly advanced state of depletion. Condition #4 of the approval, that all associated gas production be conserved, will no longer be met as the well b-A68-G/94-H-2 has been approved for a single well oil battery with gas flaring.

Approval #94-07-002 is hereby rescinded. The producing well Encal Suncor W Milligan b-A68-G/94-H-2 (WA# 7869) reverts to its previously issued individual well daily oil allowable (DOA) of 33.6 m3/d.

Should you have any questions regarding this order, please contact Ron Stefik, at (250) 952-0310.

Sincerely,

B. van Oort
Director
Engineering and Operations Branch
