Dear Mr. Roszell:

RE: AMENDMENT TO THE CONCURRENT PRODUCTION WITH GOOD ENGINEERING PRACTICE; STODDART WEST - DOIG 'D' POOL

Attached is a Concurrent Production with Good Engineering Practice (GEP) approval amendment for the subject pool, as requested in your application dated July 17, 1998.

The Approval #97-07-008 (Amendment #1) is hereby granted under section 97 of the Petroleum and Natural Gas Act.

This approval is intended to allow operational flexibility in order to obtain additional production for performance evaluation. It should be noted that this approval may be amended if a third-party study currently being performed by Adams Pearson Associates Inc. establishes that the Stoddart West Doig "D" pool is in communication with the Doig "E" pool. Also, the project allowables may be amended if an oil well outside the project area is successfully completed in the subject pool by another operator.

Yours sincerely,
