Talisman Project (06)

May 16, 2000

Mr. Cory Sterling, P.Eng.
Development Engineer
Central Operations
Talisman Energy Inc.
3400, 888 - 3rd Street S.W.
Calgary, AB T2P 5C5

Dear Mr. Sterling:

**RE: CONCURRENT PRODUCTION WITH GOOD ENGINEERING PRACTICE
CORRECTION
BUICK CREEK LOWER HALFWAY "C" POOL**

Concurrent Production approval number 00-07-002 was issued by the Oil and Gas Commission on May 2, 2000, effecting production from the Buick Creek Lower Halfway "C" pool from the well Talisman Hz Buick d-A73-I/94-A-11 (WA# 12220).

Condition #1 of the approval, granted under the authority of section 97 of the Petroleum and natural Gas Act, states that the project area is located in NTS 94-A-14. This is an error. The condition should read;

1. The area of the scheme shall consist of units 73 and 74 of Block I/94-A-11.

Please amend your records to reflect this correction. We apologize for any inconvenience this may cause you.

Sincerely,

Peter Attariwala, P. Eng.
Supervisor
Reservoir Engineering
