Penn West Project (02)

Dear Mr. Kurucz:

**RE: CONCURRENT PRODUCTION APPROVAL RESCINDED
HELMET JEAN MARIE "J" POOL**

On June 24, 1997 a Concurrent Production approval was issued under section 97 of the Petroleum and Natural Gas Act for the Helmet Jean Marie "J" pool. This pool was produced by the single well located at a-78-A/94-P-11, which penetrated a limited oil leg associated with a downthrust graben feature.

Production records indicate that the well product status was changed from oil to gas as of April 1, 1999, following a decrease in oil rates combined with a sustained high gas-oil ratio. Therefore, the Concurrent Production approval 97-07-009 is hereby rescinded, effective March 31, 1999.

We apologize for the delay in notification and any inconvenience this may cause. Should you have any questions, please contact Ron Stefik at (250) 952-0310.

Sincerely,

Craig Gibson, P. Eng.
Manager
Reservoir Engineering and Geology

Approval Letters to Industry
GEP, SWD, CONCURRENT PROD,
PRESSURE MAINTENANCE,
WATERFLOOD, ETC.
