Dear Mr. Cadrin:

**RE: APPROVAL FOR CONCURRENT PRODUCTION, AMENDMENT #1
FIREWEED – DOIG “A” OIL POOL**

Attached is a Concurrent Production scheme approval for the subject pool, as requested in your application dated September 7, 2001.

The Approval 78-07-006 (Amendment #1) is hereby granted under section 97 of the Petroleum and Natural Gas Act.

Oil production from the Doig formation is generally characterized by declining oil rates and increasing GOR. This amendment is intended to allow economic production from the subject pool by increasing the daily gas production limit. Please note that the project allowables may be amended if another operator successfully completes an oil well outside the project area in the subject pool.

Sincerely,

Craig Gibson, P.Eng.
