Dear Mr. Mah:

**RE: REQUEST FOR GOOD ENGINEERING PRACTICE APPROVAL** *(Denied)*  
**Calahoo et al Stoddart 11-19-86-18 W6M (WA 11257)**

---

The Ministry has reviewed your application dated May 7, 1998, requesting a Good Engineering Practice scheme approval from the subject well.

The new well Calahoo et al Stoddart 11-19-86-18 (WA# 11257) has been evaluated and due to its proximity has been placed in the Oak field - Cecil "K" pool. At this time, this is a single well pool. The potential size of the pool has not been adequately defined to grant approval of your application at this time. Additional drilling and/or pressure information is required before a GEP application can be considered.

Should you have any questions, please contact Peter Attariwala at (250) 952-0311.

Sincerely,

Craig Gibson  
Manager, Reservoir Engineering  
Engineering and Operations Branch
