Dear Mr. Knibbs:

**RE: GOOD ENGINEERING PRACTICE
APPROVAL 98-06-001 (AMENDMENT #2)
HELMET - JEAN MARIE "A" POOL**

The Commission, on February 3, 2005, issued Canadian Natural Resources Limited (CNRL) a Good Engineering Practice (GEP) scheme Approval 98-06-001 (Amendment #1) for a portion of the Helmet - Jean Marie "A" gas pool.

EnCana Corporation, in an application dated March 8, 2006, requested a GEP scheme for an area that overlapped a portion of the GEP approval area issued to CNRL on February 3, 2005. The overlapping area covers several gas spacing units in Block F and G/094-P-01. As such, the subject GEP has been amended by removing these gas spacing units to accurately reflect the lands that are currently held by CNRL. Therefore, the units removed from the GEP Approval 98-06-001 (Amendment #1) are as follows:

94-P-1:

Block F - units 52-55, 62-65, 72-77, 82-87

Block G - units 54-57, 64-67, 74-79 and 84-89.

The attached GEP scheme Approval 98-06-001 (Amendment #2) is hereby granted under Part 8, Division 6, Section 101 of the British Columbia *Drilling and Production Regulation*. All other conditions remain unchanged.

Should you have any questions, please contact the undersigned at (250) 952-0366.

Sincerely,

Richard Slocomb, P. Eng.
