Calgary AB T2P 2Z5

Dear Ms. Rose:

RE: GOOD ENGINEERING PRACTICE APPLICATION
BEAR FLAT - BEAR FLAT "B" OIL POOL

The Commission has reviewed your application for Good Engineering Practice (GEP) dated March 11, 2002 for the Bear Flat - Bear Flat "B" oil pool.

This pool is currently being produced from two wells, both operated by the applicant. However, the Bear Flat "B" pool is presently not delineated sufficiently for the OGC to grant GEP approval. A primary consideration in the granting of GEP is the optimization of pool drainage and ultimate recovery. Pool mapping indicates multiple remaining potential oil spacing areas. As well, the OGC feels that sufficient information is not yet available to discount the possibility of a secondary recovery scheme.

Therefore, your application is denied, as being premature at this time.

Should you have any questions, please contact Peter Attariwala at (250) 952-0311 or Ron Stefik at 952-0310.

Sincerely,

Craig Gibson, P. Eng.
Manager
Reservoir Engineering and Geology

Approval Letters to Industry
GEP, SWD, CONCURRENT PROD,
PRESSURE MAINTENANCE,
WATERFLOOD, ETC.
