Dear Mr. Pachovsky:

**RE: GOOD ENGINEERING PRACTICE APPROVAL  
GROUNDBIRCH -CADOMIN "A" POOL**

The Commission has reviewed your application dated September 29, 2005 requesting a Good Engineering Practice (GEP) scheme approval for producing gas from the Cadomin Formation in the Brassey area.

The Commission has designated the area of application to be Groundbirch field Cadomin "A" pool.

Attached is a GEP scheme approval for the subject pool. The Approval 05-06-045 is hereby granted under Part 8, Division 6, Section 101 of the British Columbia *Drilling and Production Regulation*. No objections were received following a publication of notice of the application in the BC Gazette.

This approval is intended to allow operational flexibility and to allow the drilling and production of additional gas wells without spacing and target considerations for maximization of gas recovery.

It is noted that some lands within the GEP approval area are held under Drilling Licences. Please note that Petroleum and Natural Gas Lease selections must be made prior to gas production.

Sincerely,

Richard Slocomb, P. Eng.
