Suncor Project #2(04)

Dear Mr. Tsougrianis:

**RE: GOOD ENGINEERING PRACTICE APPROVAL
BLUEBERRY DUNLEVY "A" POOL**

Attached is a Good Engineering Practice (GEP) scheme approval for a portion of the subject pool, as requested in your application of May 11, 2005.

Two wells are currently producing within the subject application area (3-18, and 13-18-88-24 W6M) by way of a shared daily gas allowable. Despite having two producing wells in this gas spacing unit, pressure and production data indicates that additional wells are required to maximize reserves recovery. Therefore, Approval 05-06-033 is hereby granted under Part 8, Division 6, Section 101 of the British Columbia *Drilling and Production Regulation*.

This approval will allow the drilling of additional gas wells without regard for spacing regulations in order to optimize pool drainage and recovery. No objections were received following a publication of notice of the application in the BC Gazette.

Should you have any questions, please contact Richard Slocomb at (250) 952-0366.

Sincerely,

Craig Gibson, P. Eng.
Director
Resource Conservation Branch

APPROVAL 05-06-033

THE PROVINCE OF BRITISH COLUMBIA
PETROLEUM AND NATURAL GAS ACT
DRILLING AND PRODUCTION REGULATION
OIL AND GAS COMMISSION

IN THE MATTER of a Good Engineering Practice (GEP) scheme of Suncor Energy Inc. (Suncor) for producing a portion of the Blueberry - Dunlevy "A" pool without spacing and target restrictions.

NOW, THEREFORE, the Commission, pursuant to Part 8, Division 6, Section 101 of the *Drilling and Production Regulation*, hereby approves the GEP scheme of Suncor as such scheme is described in

an Application from Suncor to the Commission dated May 11, 2005.

This scheme is approved, subject to the conditions herein contained and, in particular:

1. The area of the scheme shall consist of Section 18-088-24 W6M.
2. The requirements of Section 10 of the *Drilling and Production Regulation* are hereby waived, provided that gas wells within the scheme area are not completed nearer than 250 m to the sides of the approved scheme area.
3. The gas wells within the scheme area may be produced without individual well allowable restrictions.
4. This approval may be modified or rescinded at a later date if deemed appropriate.
